WRITTEN OPINION OF THE
INTERNATIONAL SEARCHING AUTHORITY

International application No.

PCT/IL04/01134

Box No. I Basis of this opinion

1. With regard to the language, this opinion has been established on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.

☐ This opinion has been established on the basis of a translation from the original language into the following language _____, which is the language of a translation furnished for the purposes of international search (under Rules 12.3 and 23.1(h)).

2. With regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of:

a. type of material

☐ a sequence listing

☐ table(s) related to the sequence listing

b. format of material

☐ in written format

☐ in computer readable form

c. time of filing/furnishing

☐ contained in international application as filed.

☐ filed together with the international application in computer readable form.

☐ furnished subsequently to this Authority for the purposes of search.

3. ☐ In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.

4. Additional comments:

WRITTEN OPINION OF THE
INTERNATIONAL SEARCHING AUTHORITY

International application No.
PCT/IL04/01134

Box No. V Reasoned statement under Rule 43 bis 1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims 4-5, 9-10, 13, 15-19, 25, 27-45	YES
	Claims 1-3, 6-8, 11-12, 14, 20-24, 26, 46	NO
Inventive step (IS)	Claims NONE	YES
	Claims 1-46	NO
Industrial applicability (IA)	Claims 1-46	YES
	Claims NONE	NO

2. Citations and explanations:

Claims 1-3, 6-8, 11-12, 14, 20-24, 26 and 46 lack novelty under PCT Article 33(2) as being anticipated by Katsaros et al.-5,540,715.

Katsaros-715 (Fig. 14) discloses biodegradable balloon 86/90 and biodegradable anchor member 92/sealing mechanism for stopping bleeding from a catheterization puncture hole of an artery/blood vessel and inherently a biodegradable reservoir of filling material such as a salt water and delivery system capable of the balloon and anchor members adjacent to the hole as recited in the claims.

Claims 4-5, 9-10, 13, 15-19, 25, 27-45 lack an inventive step under PCT Article 33(3) as being obvious over Katsaros et al.-5,540,715.

Katsaros-715 (Fig. 1-14) discloses substantially the invention. Katsaros-715 does not explicitly disclose variations/modifications as recited in claims 4-5, 9-10, 13, 15-19, 25, 27-45. However, the variations/modifications as recited in the claims are well known. It would have been obvious to one of ordinary skill in the art at the time of the invention to provide Katsaros-715 device the features as claimed without significantly changing the function and performance of the Katsaros-715 device.
